PROFILE

Final-year Computer Science undergraduate specializing in Application Development. I design and deploy complete web applications in PHP/MySQL and JavaScript, from database modeling through to production release. Cisco-certified in data science and artificial intelligence, and currently pursuing further specialization in networking and cybersecurity.

TECHNICAL SKILLS

Languages: PHP 8 (OOP), JavaScript (ES6+), HTML5, CSS3, SQL

Databases: MySQL / MariaDB — schema design, queries, PDO, optimization

Tools & methods: MVC architecture, Node.js, Stripe API, PWA, Git / GitHub, XAMPP / Apache, Vercel

Additional areas: Data science and artificial intelligence (Cisco fundamentals), networking and cybersecurity foundations

EDUCATION

Licence in Computer Science — Application Development (IDA) 2025 – 2026

HEC La Roche, Abidjan, Côte d'Ivoire — expected August 2026

- Three-year French-system degree equivalent to a Bachelor of Science.
- Application development, databases, software engineering, networking fundamentals.

Computer Science, Years 1 and 2 2023 – 2025

Institut des Hautes Études de Management Samuel Ouli (IHEM/SO), Abidjan

- Web and mobile development: HTML, CSS, JavaScript, Node.js, algorithms, SQL.

Baccalauréat, Series D (science track) 2021

Groupe scolaire Nahaclan, Abidjan — equivalent to a high school diploma

CERTIFICATIONS

- **Cisco Networking Academy** — Introduction to Data Science
- **Cisco Networking Academy** — Introduction to Modern Artificial Intelligence
- **Cisco Networking Academy** — Learn-A-Thon 2025
- *In progress:* CompTIA Network+, CompTIA Security+, Cisco CCNA

PROJECTS

Gbaka Pay — Digital Payment Platform for Urban Transport 2025

PHP 8, MySQL/PDO, MVC architecture, PWA

- Designed and built an end-to-end payment solution for Abidjan's minibus (gbaka) network, covering route, trip and transaction management.
- Delivered 52 modules and ran full end-to-end testing across all user and administrator workflows.

L'ESSENCE Haute Parfumerie — E-commerce Website 2025

Object-oriented PHP, MySQL, MVC, PWA

- Product catalog, shopping cart, checkout flow and an administrator back office with a statistics dashboard.

VOGUE ELITE — Fashion E-commerce Platform 2025

PHP, MySQL, Stripe API

- Integrated Stripe Checkout payments, inventory management and a customer review system.

School Management System 2025

PHP, MySQL

- Student records, grading and enrollment management, including an online examination module with anti-cheating safeguards and predictive performance analytics.

Personal Portfolio Website

2024

HTML, CSS, JavaScript — deployed on Vercel

- Bilingual French/English site with three display themes, a contact form and SEO optimization.

LANGUAGES AND INTERESTS

Languages: French (native) — English (intermediate; fluent technical reading)

Interests: Basketball, reading, video games
